

<BMS interface unit>

SC-BGWNA-A/SC-BGWNA-B (BACnet gateway)

Production by order

(SC-BGWNA-B is with electric power calculation function)

SC-BGWNA-A/B is an interface device that converts MHI's Superlink-II communication data to BACnet code. Control and monitoring functions of the a/c system for up to 96 cells (some cells can have two or more indoor units and total number of indoor units can be up to 128 units) can be integrated to a central control point via the building management system network.

Additional engineering service cost etc. is required. In case of SC-BGWNA-B, communication test by qualified person regarding electric cost calculation function is required before commissioning. Please consult your dealer when using this gateway.
